

NEW HEART BEAT DEVOTIONS

Never Obsolete

My computer at work came with a big sticker on the front from the manufacturer. It was a slogan to promote their latest innovation. It said "Never Obsolete". The computer is only three years old but there is already talk of replacing it. Some hand-held PDA can do more than this unit. It seems that the latest technology is obsolete by the time the consumer buys it. (Update that computer was replaced twice in 10 years. My home computer was replaced 7 times so far.)

I remember attending a funeral where the official said that he wanted to read from an ancient writer from a forgotten outdated book because it may bring some comfort. I thought he was going to read from a Greek philosopher but he read the 23rd Psalms. I wanted to stand up say, "God's Word is never obsolete! It is filled with comfort, instructions, reproof and righteousness. It is new and exciting every morning. I can introduce you to the Author."

Do you know the Author? Have you read His Words lately? They can change your life. They hold the answers to your current problems and questions.

"Heaven and earth shall pass away but my words shall not pass away." Matt 24:35
